### ELECTRIC POWER EXPENDED

NEW COOPERATIVE POWER PLANTS -- Borba, No 39, 15 Feb 49

Dubrovnik -- A cooperative electric power plant was put in operation in January at Giliplj in Konavle, and another will begin operation during February in the village of Sleno. The plant at Sleno was begun 3 months ago by members of farm workers' cooperatives. An abandoned motor-driven mill is being restored and will receive its power from the new power plant. The electrification of a vacation ground for children and another for workers, for which this plant will supply the necessary electricity, will contribute greatly to expansion of the local tourist business.

CROATIAN TOWNS ELECTRIFIED -- Borba, No 41, 17 Feb 49

An electric power plant to furnish electric lighting has been put in operation in the szex seat of Pregrada in Croatia. The installation of the electric network began early in January. All szex buildings have now been electrified, and work is continuing on other buildings. Four teen-agers from the Society of Radio Amateurs in Zagreb are installing equipment on a voluntary basis.

VILLAGE IN MACEDONIA ELECTRIFIED -- Borba, No 37, 13 Feb 49

Electric Lighting has been installed in 80 dwellings of the village of Bucin in Prilep Srez in Macedonia. The current will be provided by a dynamo driven by a water turbine in the state mill in the village.
